

Hunter Valley Training Company

Training Facility

Client:	HVTC Rutherford
Contract Value:	\$4.5 million
Services:	Construction Project Management, Superintendent Services and Fit-out Design Management & Delivery

Construction ran over a 6 month period to build a new training facility for Hunter Valley Training Company.

A purpose built facility well equipped to support training of apprentices and trainees to a range of industries including mining, engineering, manufacturing, fabrication, automotive and electrical as well as traineeships in trade areas, business and warehousing.

The facility incorporated the following:

- Four (4) new workshops
- Training rooms
- Administration building
- Associated car parking
- Landscaping and signage
- Fit-out
- Relocation of existing heavy machinery

The facility was completed in February 2014.
