

Midal Cables, Tomago

Industrial Aluminium Rod and Cable Facility

Client: Midal Cables International Pty Ltd

Contract Value: \$28 million - Base Build

Services: Project Management

Midal Cables is a development in Tomago Industrial Park adjacent the Tomago Aluminium facility at Tomago.

Design and Construction of a manufacturing facility that will initially produce 50,000 tonnes per annum of aluminium rod and cable for local and export market.

The project commenced in January 2013 and comprised of:

- Pre Construction and Early Works included demolition, site establishment and substantial commencement of construction of the buildings.
- Construction of Main Works.
- Under a separate Headworks Contract, Caverstock Group managed for the client the delivery of electrical and gas services to the site.
- Post Construction.

Practical Completion was obtained in March 2014 after a 12 month construction period.
